TECHNICAL ASSISTANCE
OFFERINGS

About Us

The Justice Community Overdose Innovation Network (JCOIN) Coordination and Translation Center (CTC) is designed to help put research into practice.

We offer _free_ technical assistance to improve access to substance use disorder treatment for justice-involved individuals and to facilitate practitioner-researcher partnerships and research.

Tell us what topics you are interested in, we will work with you to meet your needs... for FREE!

Who we Help

- ✓ **Justice agencies**
- ✓ **Behavioral health agencies**

JCOIN Core Measures

Prior Projects:

☑ Helped a researcher and project coordinator use Evaluability Assessments in their research on a school-based prevention program.

☑ Worked on an evaluation of a police diversion-to-treatment initiative

☑ Partnered with community agency to develop eLearning course on fentanyl tailored to their own setting.

☑ Worked with behavioral health and probation agencies on customizing training curriculum for use of screening and assessment standardized tools

☑ Partnered with county jail on MOUD implementation to address issues related to diversion, buy-in, stigma, and cost.

☑ Provided experts for local judicial conferences on the use of medications in prison, jail, and problem-solving courts

☑ Provided consultations to behavioral health and probation agencies on memorandums of agreement to provide quality substance use services
